

# CHARTA CAELI

## Legend

Southern declination limit: -20°

Grid width for Declination: 10°  
Grid width for Right Ascension: 1<sup>h</sup>  
Graduation for Right Ascension: 5<sup>m</sup>

Grid width for galactical altitude: 15°  
Grid width for galactical azimuth: 45°  
Graduation for galactical azimuth: 15

Catalogues used: The Milkyway Contour Catalogue  
The NGC 2000.0 Catalogue (VII/118)

## Symbols used for VII/118 catalogue

- ⊕ Point of interest
- Common star
- ◐ Double star
- ⊙ Multiple star
- ⊙ Variable star
- ★ Variable star with large amplitude and high frequency
- ★ Variable star with large amplitude and low frequency
- ⊙ Variable star with low amplitude and high frequency
- ⊙ Variable star with low amplitude and low frequency
- Bright nebulae
- ◐ Dark nebulae
- ✧ Planetary nebulae
- ⊙ Open cluster
- ⊙ Globular cluster
- ⊙ Flat galaxy with elliptic shape
- ⊙ Galaxy with elliptic shape
- ⊙ Galaxy with circular shape
